

It is not supposed at the U. S. Treasury that the late report of the committee of ways and means for the increase of the excise on certain articles comprehends all that are to be the subject of augmented taxation. Reports upon other articles will be made from time to time, according to the latest and best light that may be shed upon the subject generally. The latest estimate in respect to the tax on cotton is that one million bales will be forthcoming, which will yield some \$8,000,000 to the Treasury.

The Montreal Witness says that a French Canadian land owner died suddenly, to all appearances, a few days ago, and was taken to the church for interment. As the service was proceeding noises were heard coming from the coffin, the lid was taken off, and the man was found to be alive. On the following day he was able to be about.

Mr. McDougall's "French War" Resolutions introduced in the U. S. Senate, declare "that it is the duty of Government to demand the withdrawal of the French troops from Mexico prior to the 15th day of March next.— If they be not then withdrawn, to declare war with France." It is probable that these resolutions "will sleep their last sleep" in the Senate Committee on Foreign Relations.

The dispatch steamer Newbern, at Fortress Monroe, from the fleet off Wilmington, reports that when she left, on Monday last, the gunboat Iron Age was aground under the fire of the Confederate land batteries on the Eastern shore, at the entrance of Wilmington harbor. The Minnesota had gone to her assistance.

Advices from Batavia state that the Confederate steamer Alabama was cruising between Nicholas Point and North Salem about the 14th November. The crews of the ships Amanda and Winged Racer, before reported as destroyed, had been landed at Batavia.

The New York Commercial Advertiser intimates that a powerful steamer is now building at that port, ostensibly for a tug boat, but if allowed to get away will be found engaged in a very different business.

The Richmond Enquirer demands the immediate conscription of such of the "producing classes," as are, or have been, speculating and growing rich upon the necessities of the poor soldiers.

The bill reported from the Committee of Ways and Means in the U. S. House of Representatives, appropriates \$700,000 for the reimbursement of Pennsylvania on account of the Confederate invasion.

For the first time in three centuries, a Roman Catholic has been appointed a Judge in England, in the person of Mr. Sergeant Shee, a very eminent lawyer.

Advices from Japan say that the parties of the Tycoon and Prince Satsuma have agreed upon the expulsion of the foreigners. The yielding of the Tycoon is attributable to the pressure of Prince Satsuma.

A new feature of fashionable life in New York is the masquerade skating parties that occur almost every evening, on what are known as private ponds, in the upper part of the Island, but more especially in Jersey City and the Jerseys. The public at large are not admitted to the charmed circle.

It is a settled thing that there will be no action by the republican Senators as a body to expel Mr. Garrett Davis.

SIGESMOND & HAYWARD, DENTISTS.

NEW AND IMPROVED INVENTION OF
ARTIFICIAL CHEOPLASTIC BONE TEETH
WITHOUT METAL PLATE OR CLASPS.

DR. S. B. SIGESMOND & CO.,
211, King Street, Alexandria, Va., 910 Broadway, New York—200 Pennsylvania avenue, between 12th and 18th streets, Washington,

CALLS the attention of the public to the following advantages of his improved system:
1. The Teeth of their manufacture will never corrode nor change color by any acids, being four-fourths lighter than any other.

2. No teeth or roots need be extracted, as the artificial ones can be inserted over them.

3. The roots will be made inoffensive and never to ache.

4. No temporary teeth are needed, as permanent ones can be made immediately, thereby preserving the natural expression of the face, which under the old system is frequently disfigured.

5. This work has been fully tested over five years by many of the first chemists and physicians of this country.

Dr. S. & Co., have also invented a white undestructive metal filling, with which the most sensitive teeth can be filled without pain, and can build up a perfect sound tooth on any side roots, which will last through lifetime.

The best of references given by Dr. W. Mott; Dr. Doremus, Professor of Chemistry, N. Y., and thousands of others.

Call and examine for yourself.
Office hours from 10 a. m., to 3 p. m., on Tuesdays, Thursdays, and Saturdays.
